Experience

Developer at Plein Air Agency (Feb. 2023 - Present)

- Built components for websites using Vue/Nuxt and Wordpress in an agile environment, utilizing Git and Jira and version control.

Front-End Developer & SEO Specialist at Agency Habitat (Feb. 2020 - Dec. 2022)

- Built mobile first, cross browser compatible, accessible, search engine optimized websites using Javascript, PHP, Wordpress, and Google Analytics/Google Tag Manager, utilizing GitHub for version control.
- Built emails using Litmus for testing across common email softwares.
- Worked with E-Commerce sites like Shopify and Squarespace customizing themes.
- Ran multiple SEO campaigns utilizing Moz Pro. Conducted ADA compliance audits, site crawl and technical audits, and page speed optimizations.

Freelance Web Development (Sept. 2019-Dec. 2019)

- Built an online jewelry store for a client using Wordpress, integrated with PayPal, Quickbooks and ShipStation.

WorkHorse Service Company Solutions (Aug. 2019-Sept. 2019)

- Built components in React for an alarm service application with a Laravel backend.

Education

Suncoast Developers Guild - 2019

Certificate for Full-Stack Web Development

SDG is a completely immersive full stack web development program with an emphasis on front end development.

- Learned how to build websites with Javascript and React framework, using components and hooks.
- Learned how to build APIs with C# on a .NET framework.

Tarrant County College - 2017 - Associate of Arts Degree
